

International maintrac Online Forum

Q1 - 10.01.2023 , 8PM MEZ (Berlin)
10.01.2023 , 7PM GMT (London)
10.01.2023 , 2PM EST (New York)
11.01.2023 , 6AM AEDT (Sydney)

Topic:

“Testing of circulating tumor stem cells by *stemtrac* to assess tumor aggressiveness and risk of metastasis”

We would like to invite you to join the upcoming **international maintrac Online Forum**. During the forum we will show you in which situations patients can benefit from using the **stemtrac** test.

stemtrac:

- **is a test procedure that can be used to check whether there are proliferating cancer cells in the blood**
- **the more tumor spheres found, the more aggressive the tumor and the higher the risk of metastasis**

Discuss specific cases raised by the audience with Prof. Pachmann. Feel free to ask further questions and discuss them with your peers.

You will find the link for the forum two weeks in advance on our website under the Events tab. You will also receive it by e-mail, if you are already on our mailing list.

If you have any questions, please contact us by phone + 49 921 73 00 52 10 or by e-mail mail@simfo.de

We look forward to your participation!
